- SCHOLAR is another online resource used to support young people studying National Qualifications. A link to their YouTube video which was created to show learners how to use SCHOLAR in their studies as they work towards a National 5, Higher or Advanced Higher qualification can be found by clicking [here](#). The video is suitable for learners with no prior experience of SCHOLAR, but may also be of benefit to students with summative assessments or exams approaching who may wish to use the interactive course materials and automatically marked, end of topic and end of unit assessments for consolidation and revision.
