GOOGLE CLASSROOM

Google Classroom is an online tool that facilitates paperless communication between teachers and students. Google Classroom allows teachers to create classes, post assignments and view work. All pupils have access to GLOW, which allows access to Google Classroom. Codes are available from individual teachers. Pupils can use Google Classroom to access class resources and view tasks that have been assigned to them.

The 'To Do' list is an excellent tool to help pupils and parents/carers track what tasks are assigned, as well as being able to view tasks that are marked as 'missing' and not handed in.

WEST OS

WEST OS is a programme of revision materials providing comprehensive online interactive learning materials. Similar to SCHOLAR, it is free for all South Lanarkshire pupils through Glow and provides access to online materials (including recorded lessons) for all subjects. Pupils should login to Glow and select the WEST OS icon to access the resources.
