

Strathaven Academy - Emergency Evacuation

Visitor Information

When an Emergency Evacuation Alarm Sounds, Visitors should:

- Stop what they are doing
- Leave their belongings
- Remain calm
- Use the nearest fire exit to exit the building
- **Walk** carefully out of the building to their assigned muster point

The nearest emergency exit to this room is at the bottom of the stairwell closest to the door.

The muster point for all visitors is the tarmac area (with picnic benches) outside of the outdoor football pitch (cage).

Upon exiting the building at the bottom of the stairs, please turn left and walk round the outside of the building to the right hand side to reach the football pitch. There is a tarmac path all the way there and all people should be moving in the same direction.
